

Acknowledgements

The production of this IARC Working Group Report was partially funded by a grant from the Bill & Melinda Gates Foundation to IARC.

Thanks go to Reetta Holmila, Rosita Accardi-Gheit, Susan Haver-Legros, and Laurence Marnat for their support at the Working Group meeting and during the preparation of this Report.

The meeting was the occasion to present the IARC Medal of Honour (2010) to Professor Gerald Wogan in person, to recognize his lifetime contribution to understanding the role of aflatoxins in human liver cancer.
